EXPERIENCE

Neolite | Calgary, AB — *Full-Stack Developer, Co-Founder*

February 2023 - PRESENT

At Neolite, I've played an integral role in the end-to-end development of design-forward websites and web apps. I've collaborated closely with a dedicated team, balancing roles from business & project management to hands-on coding. Together, we've consistently delivered high-end, custom web solutions that cater to a diverse range of client needs.

EDUCATION

Oregon State University | Online E-Campus
B. Sc. Computer Science

July 2021 - February 2023

Acquired robust technical skills essential for web development, covering front-end to back-end techniques, mobile UI/UX design with Flutter, database management, and user-centric UI/UX solutions. Led a group capstone project, developing a full-stack website from design to deployment.

University of Calgary | Calgary, AB
B. Sc. Biological Sciences

September 2015 - April 2020

My degree in Biological Sciences instilled in me a rigorous scientific mindset, emphasizing research and data-driven solutions. This academic experience introduced me to computational problem-solving in the context of bioinformatics.
